KAPSUL
THE BALANCE CAPSULE

THE CONCEPT

VLUV KAPSUL combines the ergonomic advantages of a VLUV BOL sitting ball with the compactness of a stool. Completely different, yet so similar. You automatically and intuitively balance out. The intentional instability allows for lots of movement and activity, yet you feel safe and comfortable.

- minimalistic design in a capsule shape
- slimmer, space-saving silhouette
- motivates to sit up upright and straight
- constant unconscious movement and balance
- typical bounce & balance effect like a sitting ball
- balance stool, pouf and exercise equipment all in one
