

VLUV®

NEW

KAPSUL. THE NEW SITTING CAPSULE.

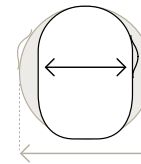

THE CONCEPT

The new VLUV KAPSUL combines the ergonomic advantages of a VLUV BOL sitting ball with the compactness of a stool. Completely different, yet so similar. You automatically and intuitively balance out. The intentional instability allows for lots of movement and activity, yet you feel safe and comfortable.

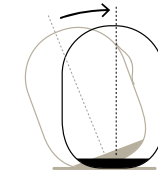

- minimalistic design in a capsule shape
- slimmer silhouette – takes up less space
- motivates to sit up upright and straight
- constant unconscious movement and balance
- typical bounce & balance effect like a sitting ball

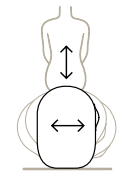

THE MOST IMPORTANT VLUV KAPSUL FEATURES

Slimmer silhouette
A silhouette slimmer than a sitting ball. Ideal for smaller tables

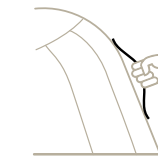

Stand-up Function
Built-in stand-up weight – always tumbles back into place

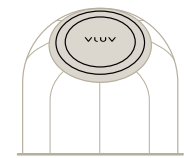

Bounce & Balance Effect
Freed, active and dynamic sitting in every which way

More Legroom
Improved mobility and easier to move over

gripME
The typical VLUV signature handle for easy carrying

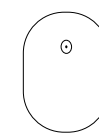

Anti-slip coating
Silicone coated bottom area to prevent slipping
